From The Office Of The Mayor.....

Robert J. Doerr

Spring has finally arrived and with it comes many outdoor activities for everyone to enjoy. We have a full agenda for the youngsters this year, so make sure you mark your calendar for all of the upcoming events listed inside this brochure and the Recreation Center bro-

chure. The pool will be open soon, so make plans to use it this summer along with our parks and the miniature golf course behind the Recreation Center.

I also must remind you that you must maintain your property, including cutting the grass as well as trimming. After the hard winter that we experienced this year, there will be some who will need to make repairs to their property. Please move forward in making these repairs as the city will be notifying you if you are slow in doing so. I cannot emphasize enough the need to maintain your property and to keep this city the jewel of North County. Homes will be judged for the 2014 Beautification Awards in June.

Memorial Day will be celebrated this year at the Missouri Veterans Home on Monday, May 26th at 10:00 AM. Please come and help us salute our Veterans who have given so much for our country. The freedoms which we share should never be taken for granted, but rather celebrated with those who gave them to us. Please remember our fallen soldiers and their families this Memorial Day.

I want to congratulate the re-election of Aldermen Shirley Paro, Ward 1; Scott Schultz, Ward 2; Mark Roth, Ward 3; and the election of Willis Dillworth, Ward 4. We have a Board of Aldermen that works together for the betterment of the community and moves forward with meeting the challenges of today.

Left to right, Alderman Shirley Paro (Ward 1), Alderman Scott Schultz (Ward 2), Alderman Mark Roth (Ward 4) and Alderman Willis Dillworth (Ward 4)

I am always looking for volunteers for our various Commissions and Boards, so if you would like to participate, please call and offer your assistance. I wish to congratulate Dan Bogaski for his appointment to the Planning and Zoning Commission. Remember, if there is something that needs our attention, please let us know. I cannot fix it if I do not know it is broken.

Light The Night For Safety!

By Anthony Smith

Criminals love dark places and hate being seen when they commit crimes. Make them not want to commit crimes in your area. Keep your property well lit. Turn on porch lights and use a motion sensor on

lighting in other areas. The cost of burning the night lights is well worth it to deter crimes. Most people turn lights on and become more observant only after they've become a victim. That's too late! You recognize the benefit, make it work for you! Keep your property well lit so others can watch your property as you watch theirs. Let's keep our neighborhoods safe!

Call 889-2341 to report suspicious activity.

STL250 Recognizes Bissell House Museum

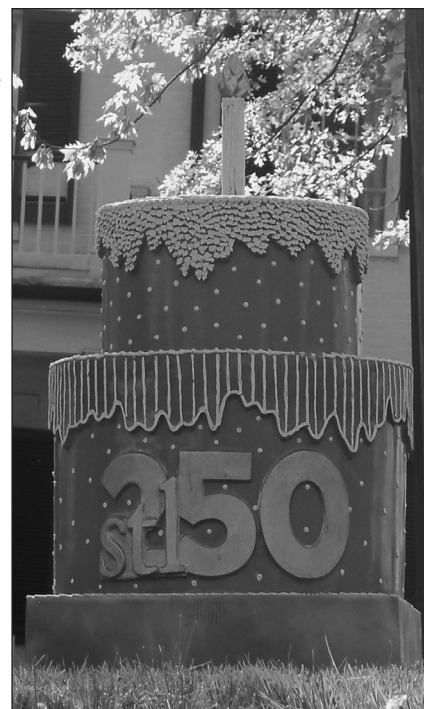

Volunteer organization STL250 has the task of promoting the 250th anniversary of the City of St. Louis. They have placed 250 birthday cakes around the area to commemorate historical sites, favorite destinations and area landmarks. The Daniel Bissell House Museum, owned by St. Louis County Parks and Recreation, located at 10225 Bellefontaine Road in the City of BN was chosen. The cake is located on the front lawn.

Since it is only fitting that there should be a party to commemorate this award, The City of BN, St. Louis County Parks, the churches and not-for profit organizations are getting together and are planning a party for Saturday, September 13, 2014.

Historians from St. Louis County will lead "mini" tours of the General Daniel Bissell House Museum and the City of BN will provide free hot dogs. Churches and not-for-profit organizations will be providing game, food, local entertainment and information booths. This event will be free.

If your organization would like to participate, please contact Shirley Paro at sparo@cityofbn.com or call 869-8251. Sorry, only not-for-profits are invited to host booths.

Mark your calendar and plan to join us to celebrate our history, visit with old friends and make new friends. Bring a lawn chair and make it a day. Watch for more information on Nextdoor.com and in the August issue of the Bellefontaine News.

St. Louis County Parks & Recreation Invests in North County

A couple of years ago, residents were complaining about the lack of maintenance in the St. Louis County Parks. As a result of the "Arch Sales Tax" that passed in April of 2013, The St. Louis County Parks and Recreation Department finally has some funds available for updates, maintenance and repairs. A new floor and stove have been installed in the Bissell House Barn and a beautiful little picnic area has been built around a fireplace left behind after the destruction of an old summer house near the Kingsbury Picnic Shelter in Bella Fontaine Park. Thanks to St. Louis County for these updates in North County! You can help protect the investment in our parks by reporting anything you see that is suspicious by calling 889-2341 or 911.

Mosquito Control Is Up To You

With a cold, long winter, we hope that this year's mosquito season will be a light one. Mosquitoes have been around for millions of years, so they will be around, but can be controlled by limiting their habitat.

The City of BN contracts with St. Louis County for insecticiding (spraying to kill adult mosquitoes) and larvaesiding (treating standing water to kill the larvae).

Treating adult mosquitoes is only a temporary solution. Elimination of breeding sites and stopping mosquitoes while they are still larvae in water is much more effective and economical. Even just a quarter of an inch of water collecting in a clogged rain gutter, flower pot or bird bath is enough to serve as a nursery

for an entire generation of tiny, swarming monsters. Clear debris from the gutters and pick up any junk around the yard that allows water to collect and stand.

Female mosquitoes live an average of two weeks and can lay 100–200 eggs during the course of the adult phase of their life cycles. Even with high egg mortality, over a period of several weeks, a single successful breeding pair can create a population of thousands.

Adult mosquitoes rest during the day, usually on tall weeds or other vegetation. Make your yard less hospitable to mosquitoes by mowing your lawn regularly, and keep weeds away from your home's foundation. You can make a difference!

Pot Hole Patrol

Harsh winter weather took a toll on both the street department and the streets. By the time the street department employees were rested up from removing snow, they found themselves deep in pot holes!

As soon as the weather was warm enough for the patch to stick, the street department set out to fill the pot holes. In this photo, Jim Smith, Jeff Ross, Jeff Sullivan and Mark Kuchta sweep up debris and fill the holes left from the winter.

You are encouraged to report any pot holes or street problems that we haven't addressed yet to City Hall at 867-0076.

Holy Name of Jesus Hosts Walbridge Reunion

By Greg Warnusz

The hard-working volunteers who staff the fishfry at Holy Name of Jesus Catholic Church welcomed some special guests on March 28. They were alumni of Walbridge Elementary School (8th grade graduating classes from 1957 to 1966) in the Walnut Park neighborhood of North Saint Louis. They came for a reunion with their former teacher, Lois Velten-Albers and her husband, Frank.

left to right, (seated): Rose M Fritz-Ketts & Lois Albers
2nd row: Karen Studley-Bober, Linda Nico-Tumbough, Faye Schaedlich-Eichholz, Diane Kutha, Mike Redman, 3rd row: Shirley Powell-Paro, Sue Thread, Sharon Fahey-Gartner, and Jenny Nicolay and John Kuchta in the back.

Former Walnut Park residents, including BN residents, Greg Warnusz and BN Alderman Shirley Paro, had been reminiscing on

Facebook. Greg told the Walbridge alumni that Lois and Frank volunteered at every fishfry. Shirley conceived the idea of a reunion at the fishfry. Greg and Shirley got Lois and Frank to buy in, as well as fishfry manager Marialice DuHadway. Invitations went out over Facebook, and in the end, a dozen Walbridge alumni came, gathering at tables reserved for them. State Senator Gina Walsh presented Lois and Frank a Proclamation from the Missouri legislature (left), and City of BN Mayor Bob Doerr gave Lois a Key to the City (lower right). Lois and Frank enjoyed a booklet of collected Facebook comments from former students about their Walbridge years.

Lois and Frank Albers were also thanked for their service to church and community over the years. Thanks for all you have done for the community.

Board Of Adjustment

The Board of Adjustment (BOA) is a 5 member board that only meets upon request when a property owner seeks a variance from city zoning code ordinances. Unlike other city Boards and Commissions who make recommendations to the Board of Aldermen, the decision of the Board of Adjustment is final.

BOA members take their jobs very seriously, and since each case is different, each case is thoroughly researched, viewed and given careful consideration. The actions of the BOA are carefully recorded by the City Clerk and advice is given by the City Attorney.

The City of BN has adopted the current International Building Code (IBC), International Residential Code (IRC), International Existing Building Code (IEBC), International Plumbing Code (IPC), International Mechanical Code (IMC) and the National Electrical Code (NEC). These codes are updated on a regular basis and followed without exception, but additional City of BN building and zoning ordinances can be challenged if there is a hardship.

Appeals should be filed in writing within thirty days after the decision to deny a permit, along with the fee. All hearings are publicized and open to the public.

The appellant, the appellant's representative, the enforcement officer and any person whose interests are affected shall be given an opportunity to be

Board of Adjustment (left to right) Mike Petroff, Ed Meyer, City Clerk Deni Donovan, Chairman John Duhadway, City Attorney Kevin O'Keefe, Rich Pflueger and Al Chamberlain

heard. Variances shall only be issued upon the showing of good and sufficient cause, a determination that failure to grant the variance would result in exceptional hardship to the applicant, and a determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public or conflict with existing local laws or ordinances. Per City of BN Code Sec. 11-13, (e) (5).

A party adversely affected by a decision of the BOA may appeal to Circuit Court of St. Louis County. For more information on building and zoning ordinances, visit our web site at www.cityofbn.com/ or call the Building Department at 867-0076.

Building Permits

No matter how many times you tell a contractor that they need to get a permit, there are some who don't get the word. When the contractor doesn't get the permit, it is up to the homeowner to get it.

Make sure before you sign a contract, the permits are part of the bid, quote or contract. Make the contractor also aware that their work will be inspected by the city.

- For your protection, make sure the inspectors have approved the work before final payment is made. Also remember to ask for lien wavers.
- Before you do your own construction call the City's

Building Department at 867-0076 between 8 AM and 5 PM daily, Monday through Friday.

- Please remember that not acquiring a permit can cost you more money in the long run and may include court visits and fines. Call before you start to be safe rather than sorry.

Electrical and plumbing permits and inspections must be obtained through St. Louis County. The City of BN issues permits and inspects roofing, HVAC, concrete, fencing, swimming pools, new buildings, additions and accessory buildings, signs, demolition or excavation and remodeling. See cityofbn.com for more information.

Bissell Shopping Center, 1959

During the building boom, the City of BN that was chartered in 1950, and the major residential developer, Shuermann Building and Reality Co., worked with the city to plan the new community. A Commercial Zone was planned for the corner of Bellefontaine and Chambers Road. Land was donated to the trustees of Bissell Hills, and later turned over to the City of BN, now known as Richard Klein Municipal Park.

None of the original tenants remain in the Bissell Shopping Center, but we know (Betterdorf) Rapps was the grocery store, and later came Ben Franklin (a five-and-dime) and Parker Angelo (a furniture store). Rent for a 1,000 foot store was \$2,000 per year or \$166 per month. Prospective tenants were worried that they would have to clear \$14 a day, just to pay the rent!

Over the years, a variety of businesses served the community, including a hardware store, drug stores, a camera store, sporting goods store, barber shop and restaurant, just to name a few.

In 1961, the City of BN hired Harlan, Bartholemew & Associates to develop a city land use plan, providing

guide lines for residential, commercial and industrial. Residents in the early years of the city objected to spot zoning and the City of BN respected their requests, but it limited businesses and growth.

The shopping center looks different today. The park is the center of our city and serves as our Town Square. The trees have grown, and The City of BN has added a Veteran's memorial, gazebo and playground attracting residents to a peaceful refuge in a busy world where they can sit and enjoy their Dairy Queen treats.

Supporting our local merchants is a priority. Whenever possible, try to patronize local businesses so they will be here for the long run. Throughout the years, this planned commercial district has served the community well, and we expect it to continue for many years.

Although we will miss Bill's Market and Meats, we thank them for their many years of service. We understand there are several entities that are interested in operating a grocery store at the location. Please bear with us while the owners of Bill's Market and the owners of the shopping center come to an agreement.

How Things Have Changed Since 1959

The average cost of a house in 1959 was about \$12,400.

Ford Car: \$2,200 to \$3,979

Gas per gallon: \$0.30

Loaf of Bread: \$0.20

Gallon of Milk: \$1.01

Stamp: 4 cents

1 pound can of coffee: \$77

1959 were: "The Many Loves of

From The Desk Of The City Clerk, Deni Donovan

I, like everyone else, am always looking for a way to stay fit and eat the right foods. Sometimes my plan does not pan out, but... My husband, Jerry, walks everyday if not twice a day. He has finally convinced me this is a good form of exercise, so I have been tagging along. What I have found out, up close, is what a beautiful neighborhood we have. It just looks different walking versus driving by. I have discovered though, litter and debris seem to accumulate more on the grass between the sidewalk and the street; that is still the homeowner's responsibility. We have gotten used to bringing a trash bag with us, on our walks, to help pick up the litter. Let's all work together and be a good neighbor by picking up the trash left behind by someone else, but has landed on our property. Thanks for your help...gotta go, Jerry is waiting at the door for our walk!
