LIMITED ENGLISH PROFICIENCY

See Appendix E.

ENVIRONMENTAL JUSTICE

Compliance with Title VI includes ensuring that no minority or low income population suffers "disproportionately high and adverse human health or environmental effect" due to any "programs, policies and activities" undertaken by any agency receiving federal funds. This obligation will be met by the City in the following ways:

- When planning specific programs or projects, identifying those populations that will be affected by a given program or project.
- If a disproportionate effect is anticipated, following mitigation procedures.
- If mitigation options do not sufficiently eliminate the disproportionate effect, discussing and, if necessary, implementing reasonable alternatives

Disproportionate effects are those effects which are appreciably more severe for one group or predominantly borne by a single group. The City will use U.S. Census data to identify low income and minority populations.

Where a project impacts a small number or area of low income or minority populations, the City will document that:

- Other reasonable alternatives were evaluated and were eliminated for reasons such as the alternatives impacted a far greater number of people or did greater harm to the environment, etc.
- The project's impact is unavoidable,
- The benefits of the project far out-weigh the overall impacts and
- Mitigation measures are being taken to reduce the harm to low income or minority populations.

If it is concluded that no minority and/or low income population groups are present in the project area, the City will document how the conclusion was reached. If it is determined that one or more of these population groups are present in the area, the City will administer potential disproportionate effects test.

The following steps will be taken to assess the impact of project on minority and/or low income population groups:

STEP ONE: Determine if a minority of low income population is present within the project area. If a conclusion is that no minority and/or low income population is present within the project area, document how the conclusion was reached. If the conclusion is that there are minority and/or low income population groups present, proceed to Step Two.

STEP TWO: Determine whether project impacts associated with the identified low income and minority populations are disproportionately high and adverse. If it is determined that there are disproportionately high and adverse impacts to minority and low income populations, proceed to Step Three.

STEP THREE: Propose measures that will avoid, minimize and/or mitigate disproportionately high and disproportionate adverse impacts and provide offsetting benefits and opportunities to enhance communities, neighborhoods and individuals affected by proposed project.

STEP FOUR: If after mitigation, enhancements and offsetting benefits to the affected populations, there remains a high and disproportionate adverse impact to minority or low income populations, then the following questions must be considered:

Question 1: Are there further mitigation measures that could be employed to avoid or reduce the adverse effect to the minority or low income population?

Question 2: Are there other additional alternatives to the proposed action that would avoid or reduce the impacts to the low income or minority populations?

Question 3: Considering the overall public interest, is there a substantial need for the project?

Question 4: Will the alternatives that would satisfy the need for the project and have less impact on protected populations (a) have other social economic or environmental impacts that are more severe than those of the proposed action (b) have increased costs of extraordinary magnitude?

STEP FIVE: Include all findings, determinations or demonstrations in the environmental document prepared for the project.

APPENDIX E: LIMITED ENGLISH PROFICIENCY (LEP) PLAN

Introduction

Executive Order 13166, "Improving Access to Services for Persons With Limited English Proficiency,"¹ reprinted at 65 FR 50121 (August 16, 2000), directs each Federal agency that is subject to the requirements of Title VI to publish guidance for its respective recipients clarifying that obligation. Executive Order 13166 further directs that all such guidance documents be consistent with the compliance standards and framework detailed in the Department of Justice's (DOJ's) Policy Guidance entitled "Enforcement of Title VI of the Civil Rights Act of 1964--National Origin Discrimination Against Persons With Limited English Proficiency." (See 65 FR 50123, August 16, 2000 DOJ's General LEP Guidance). Different treatment based upon a person's inability to speak, read, write, or understand English may be a type of national origin discrimination. Executive Order 13166 applies to all federal agencies and all programs and operations of entities that receive funding from the federal government, including state agencies, local agencies such as the CITY OF BELLEFONTAINE NEIGHBORS, MISSOURI, private and non-profit entities, and subrecipients.

The CITY OF BELLEFONTAINE NEIGHBORS, MISSOURI (the "CITY OF BELLEFONTAINE NEIGHBORS" or the "City") receives funds from the US Department of Transportation via the Federal Highway Administration.

Plan Summary

The City has developed this Limited English Proficiency Plan (LEP) to help identify reasonable steps to provide language assistance for LEP persons seeking meaningful access to City services as required by Executive Order 13166. A Limited English Proficiency person is one who does not speak English as their primary language and who has a limited ability to read, speak, write, or understand English. This plan details procedures on how to identify a person who may need language assistance, the ways in which assistance may be provided, training staff, how to notify LEP persons that assistance is available, and information for future plan updates.

The City will use a U.S. Department of Transportation four factor LEP analysis which considers the following: 1) The number or proportion of LEP persons eligible in the CITY OF BELLEFONTAINE NEIGHBORS service area who may be served or likely to encounter a CITY OF BELLEFONTAINE NEIGHBORS program, activity, or service; 2) the frequency with which LEP individuals come in contact with a City service; 3) the nature and importance of the program, activity or service provided by the City to the LEP population; and 4) the resources available to the City and overall costs to provide LEP assistance. A brief description of these considerations is provided in the following section.

Factor 1: The Proportion, Numbers and Distribution of LEP Persons

The 2020 Census data for the CITY OF BELLEFONTAINE NEIGHBORS shows a very small amount of the population that would speak English "less than very well," and therefore would be

¹ The executive order verbatim can be found online at <http://www.usdoj.gov/crt/cor/Pubs/eolep.htm>

classified as LEP Persons. LEP Persons numbered 33, or 0.3% of the total population of the City which equals 10,860.

See Appendix I.

Factor 2: Frequency of Contact with LEP Individuals

The majority of work with funds received from Federal programs is performed on the roadways with the use of large trucks and heavy equipment. Very infrequently do the operators have direct contact with the public. The office staff handles service requests regarding road issues and processes permits for work in the right of way. Regular City Board of Alderpersons meetings are held every 1st and 3rd Thursday of each month and public hearings are held when needed, which would bring interested persons to the CITY OF BELLEFONTAINE NEIGHBORS.

Factor 3: The Nature and Importance of the Program, Activity, or Service to LEP

Denial or delay of access to services or information provided by the CITY OF BELLEFONTAINE NEIGHBORS would not have life-threatening implications on a LEP individual. It is believed that denial or delay of access to services or information provided by the CITY OF BELLEFONTAINE NEIGHBORS would not have serious implications on a LEP individual, especially compared to the services, such as health, emergency transportation, water, sewer, fire protection, police protection and other emergency services.

Factor 4: The Resources Available to the CITY OF BELLEFONTAINE NEIGHBORS and Overall Cost

US Department of Transportation Policy Guidance Concerning Recipients' Responsibilities to Limited English Proficient (LEP) Persons published in the Federal Register: December 14, 2005 (Volume 70, Number 239) states:

Certain DOT recipients, such as those serving very few LEP persons or those with very limited resources, may choose not to develop a written LEP plan.

While the CITY OF BELLEFONTAINE NEIGHBORS does serve very few LEP persons and has very limited resources, it has decided to include a LEP section in its Title VI Plan.

Safe Harbor Stipulation

Federal law provides a "Safe Harbor" situation so that recipients can ensure with greater certainty that they comply with their obligation to provide written translations in languages other than English. A "safe harbor" means that if a recipient provides written translation in certain circumstances, such action will be considered strong evidence of compliance with the recipient's written-translation obligations under Title VI.

The failure to provide written translations under the circumstances does not mean there is noncompliance, but rather provides a guide for recipients that would like greater certainty of compliance than can be provided by a fact-intensive, four factor analysis. For example, even if a safe harbor is not used, if written translation of a certain document(s) would be so burdensome as

to defeat the legitimate objectives of its program, it is not necessary. Other ways of providing meaningful access, such as effective oral interpretation of certain vital documents, might be acceptable under such circumstances.

Strong evidence of compliance with the recipient's written-translation obligations under "safe harbor" includes providing written translations of vital documents for each eligible LEP language group eligible to be served or likely to be affected or encountered. Translation of other documents, if needed, can be provided orally.

This "safe harbor" provision applies to the translation of written documents only. It does not affect the requirement to provide meaningful access to LEP individuals through competent oral interpreters where oral language services are needed and are reasonable.

Given the small number of LEP language group members, the CITY OF BELLEFONTAINE NEIGHBORS's budget and number of staff, it is deemed that written translations of vital documents would be so burdensome as to defeat the legitimate objectives of our programs. It is more appropriate for CITY OF BELLEFONTAINE NEIGHBORS to proceed with oral interpretation options for compliance with LEP regulations.

Providing Notice to LEP Persons

USDOT LEP guidance says: Once an agency has decided, based on the four factors, that it will provide language service, it is important that the recipient notify LEP persons of services available free of charge. Recipients should provide this notice in languages LEP persons would understand.

The guidance provides several examples of notification including:

1. Signage when free language assistance is available with advance notice.
2. Stating in outreach documents that language services are available from the agency.
3. Working with community-based organizations and other stakeholders to inform LEP individuals of the recipient's services, including the availability of language assistance services.

The CITY OF BELLEFONTAINE NEIGHBORS will provide statements in public information and public notices that persons requiring language assistance or special accommodations will be provided, with reasonable advance notice to the CITY OF BELLEFONTAINE NEIGHBORS.

Options and Proposed Actions

Options:

Federal fund recipients have two (2) main ways to provide language services: oral interpretation either in person or via telephone interpretation service and written translation. The correct mix should be based on what is both necessary and reasonable in light of the four-factor analysis.²

CITY OF BELLEFONTAINE NEIGHBORS defines an interpreter as a person who translates spoken language orally, and a translator as a person who transfers the meaning of written text from one language into another.³

Considering the relatively small amount of Federal assistance received by the CITY OF BELLEFONTAINE NEIGHBORS, the small number of LEP individuals in the service area, and limited financial resources, it is necessary to limit language aid to the most basic and cost-effective services.

What the CITY OF BELLEFONTAINE NEIGHBORS will do. What actions will the CITY OF BELLEFONTAINE NEIGHBORS take?

With advance notice of seven calendar days, the CITY OF BELLEFONTAINE NEIGHBORS will provide interpreter services at the public meetings. Interpreter to include foreign language and hearing impaired.

Placement of statements in notices and publications that interpreter services are available for these meetings, with seven days advance notice.

Publications of the federal complaint form available at public meetings.

CITY OF BELLEFONTAINE NEIGHBORS Staff Training

CITY OF BELLEFONTAINE NEIGHBORS staff will be provided training on the requirements for providing meaningful access to services for LEP persons.

LEP Plan Access

The CITY OF BELLEFONTAINE NEIGHBORS will have paper copies of the LEP Plan at City Hall, and be made available through the City's website.

APPENDIX G

City of Bellefontaine Neighbors, Missouri's Policy on Public Participation and Comment (Public Participation Plan)

A. Introduction and Policy Statement

The City of Bellefontaine Neighbors, Missouri (the "City") is committed to providing an open and visible decision-making process to which the City's residents have equal access. It is the policy of the City to actively solicit the involvement of citizens in the public decision-making process, through public notification, media exposure, neighborhood meetings, and public hearings.

Further, it is the policy of the City to offer early and continuous opportunities for the public to be involved in the identification of social, economic, and environmental impacts of proposed transportation decisions. This includes seeking out and considering the viewpoints of minority, low-income, and limited English proficiency (LEP) populations (as well as older adults and people with limited mobility) in the course of conducting public outreach activities, consistent with Federal Transit Administration (FTA) Circular 4702.1B ("Title VI Requirements and Guidelines for Federal Transit Administration Recipients").

B. Public Involvement Plan

When a project, program or issue may have identifiable impacts on a neighborhood or citizen group, a Public Involvement Plan shall be submitted to the City Clerk's Office at the beginning of the project or program. The Plan shall be designed to:

1. Ensure responsiveness to the level of interest and concern expressed by the public;
2. Ensure visibility and understanding by the agencies, groups and individuals who may participate; and
3. Ensure that public involvement is carefully and systematically included as part of the decision-making process.

City-initiated projects will be reviewed and approved by the City Clerk prior to implementation. The Public Involvement Plan will be included as part of staff reports for the Board of Alderpersons.

C. Public Involvement Principles

The following principles will be used to develop the Public Involvement Plan for City projects and programs:

- When a project (e.g., construction activity) may affect a neighborhood, special neighborhood meetings will be scheduled early in the project planning process. Notices will be sent to organized neighborhood groups and any individual who has requested notification.

- All public hearing notices shall be written in clear, concise and understandable language and will incorporate graphics when it aids the message. The notices will clearly be identified as a City notice.
- The Public Involvement Plan will reflect the City's policy to provide early and continuous opportunities for the public to be involved in the identification of the impacts of proposed decisions. It will also reflect the City's policy to seek out the viewpoints of minority, low-income, and Limited English Proficiency (LEP) populations, as well as older adults and people with limited mobility, in the course of conducting public outreach and involvement activities, consistent with the City's Title VI Program, Executive Order 13166 on Limited English Proficiency, and U.S. Department of Transportation (DOT) LEP Guidance.
- The Public Involvement Plan will be tailored to the populations affected and the type of plan, program, or service under consideration.
- Public meetings will be held in locations that are accessible to transit riders and people with disabilities, and will be scheduled at times that are convenient for members of the public.
- Public meetings and hearings will be broadly advertised in the community in both English and Spanish (e.g., through posters onboard buses and at major transit stops and facilities, the City website, local print media, social media, and email notification to the City's outreach mailing list) and notification will be provided regarding the availability of language assistance.

D. Targeted Public Outreach to Minority and Limited English Proficient (LEP) Populations

During development of the Public Involvement Plan and/or planning for public engagement in general, the City will incorporate strategies intended to promote involvement of minority and LEP individuals in public participation activities, as appropriate for the plan, project, or service in question, and consistent with federal Title VI regulations, Executive Order 13166 on Limited English Proficiency, and the U.S. Department of Transportation LEP Guidance.

At a minimum, staff will implement the strategies identified in Section C, including holding public meetings in locations that are accessible to transit riders and people with disabilities, scheduling meetings at times that are convenient for members of the public, advertising meetings and hearings in English and Spanish, and providing notice of the availability of language assistance.

In addition, City staff should consider implementing the following public engagement strategies to complement the minimum requirements, as appropriate to the plan, project, or service:

- Using supplemental outreach strategies such as surveys regarding City projects or proposed service changes.
- Partnering with community organizations to engage members of the public who are less likely to attend traditional public meetings (including LEP populations) through means such as surveys and focus groups. The City maintains a list of current and potential future community partners.

- Attending community events and meetings of neighborhood associations, faith-based organizations, advocacy groups, and other groups to solicit feedback from diverse members of the public.

City staff may consult FTA Circular 4703.1 ("Environmental Justice Policy Guidelines for Federal Transit Administration Recipients") for additional strategies that may be incorporated into the Public Involvement Plan.

E. Public Comment for Fare Increases and Major Service Changes

It is the policy of the City to solicit public opinion and consider public comment before raising fares or implementing a major service change.

A public hearing is required prior to implementation of a fare increase or a major service change. A "major" service change is defined as a modification that affects 25% or more of a single route, or 25% or more of all routes. Additional public involvement strategies, such as public meetings, neighborhood meetings, or other outreach to affected individuals will be implemented as appropriate to solicit public comment for consideration in advance of the public hearing. Public comments received will be compiled and considered prior to finalizing the City's recommendation to the City's Board of Alderpersons regarding a fare increase or major service change. A summary of the public comments received will be provided as part of the staff report submitted to the City's Board of Alderpersons for the fare increase or major service reduction in question.

The public hearing will be scheduled as part of a regular Board of Alderpersons meeting, and advertised broadly through the City's website, publication in a newspaper of general circulation, and posting flyers at major transfer centers and facilities for potentially impacted services. The hearing will also be advertised through targeted outreach to neighborhood groups or other organizations and individuals, as appropriate to the proposed change. Notices regarding the public hearing will be provided in both English and Spanish.

The public hearing will consist of a staff report before the City Board of Alderpersons, followed by public testimony.

Attachment 1 provides additional information on practices related to public comment.

Attachment 1

Additional information on process for soliciting public comment on service changes

Proposed service changes are developed by City staff. Once proposals are finalized, printed information is created that explains the proposed changes. These informational materials (available in English and Spanish) are used as handouts at public informational meetings and hearings. Flyers and posters that direct interested individuals to these materials are also posted at major transfer centers and facilities for potentially impacted services, and are provided to facilities (libraries, senior communities, human service organizations, schools, etc.) which are likely to be impacted by the service changes.

Any interested individual is invited to make comments. Comments may be submitted in person at the public informational meetings and public hearings. They may also be submitted by mail and by Comment Card. In addition, comments may be submitted over the phone to City representatives, and via email.

Information about scheduled public meetings is available via:

1. Board of Alderpersons agendas.
2. The City's Website.
3. Posted flyers at major transfer centers and facilities for potentially impacted services.
4. Appropriate venues, such as senior communities, human service organizations, and schools.
5. Email notification and social media, where appropriate.
6. Published in a newspaper of general circulation

All comments received are reviewed by City staff and considered in the final decisions. The goal of the City is to always provide the best possible service to its citizens and those using its facilities.
