PUBLIC NOTICE

Due to a miscommunication during yesterday's ordinance presentation, information was shared prematurely. What should have been posted was a brief informational summary sheet regarding the topic under consideration.

The proposed ordinance was drafted as a proactive measure only and was intended to be presented to the Board of Aldermen after a public town hall meeting had been scheduled. The purpose of that meeting would be to provide community members with an opportunity to ask questions, voice concerns, and offer comments regarding the potential reclassification.

As part of my duties, I strive to keep the community informed about opportunities, options, and issues that may not otherwise receive public discussion. No final action has been taken, and public input remains an important part of any future consideration.

Thank you for your understanding and continued engagement in our community.

Alderwoman, Felicia Bishop, Ward 1
